What is AI?

WARM-UP QUESTION

Have you ever used TikTok or YouTube?

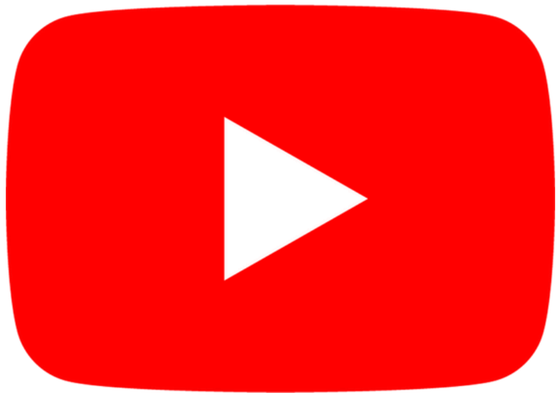

WARM-UP QUESTION

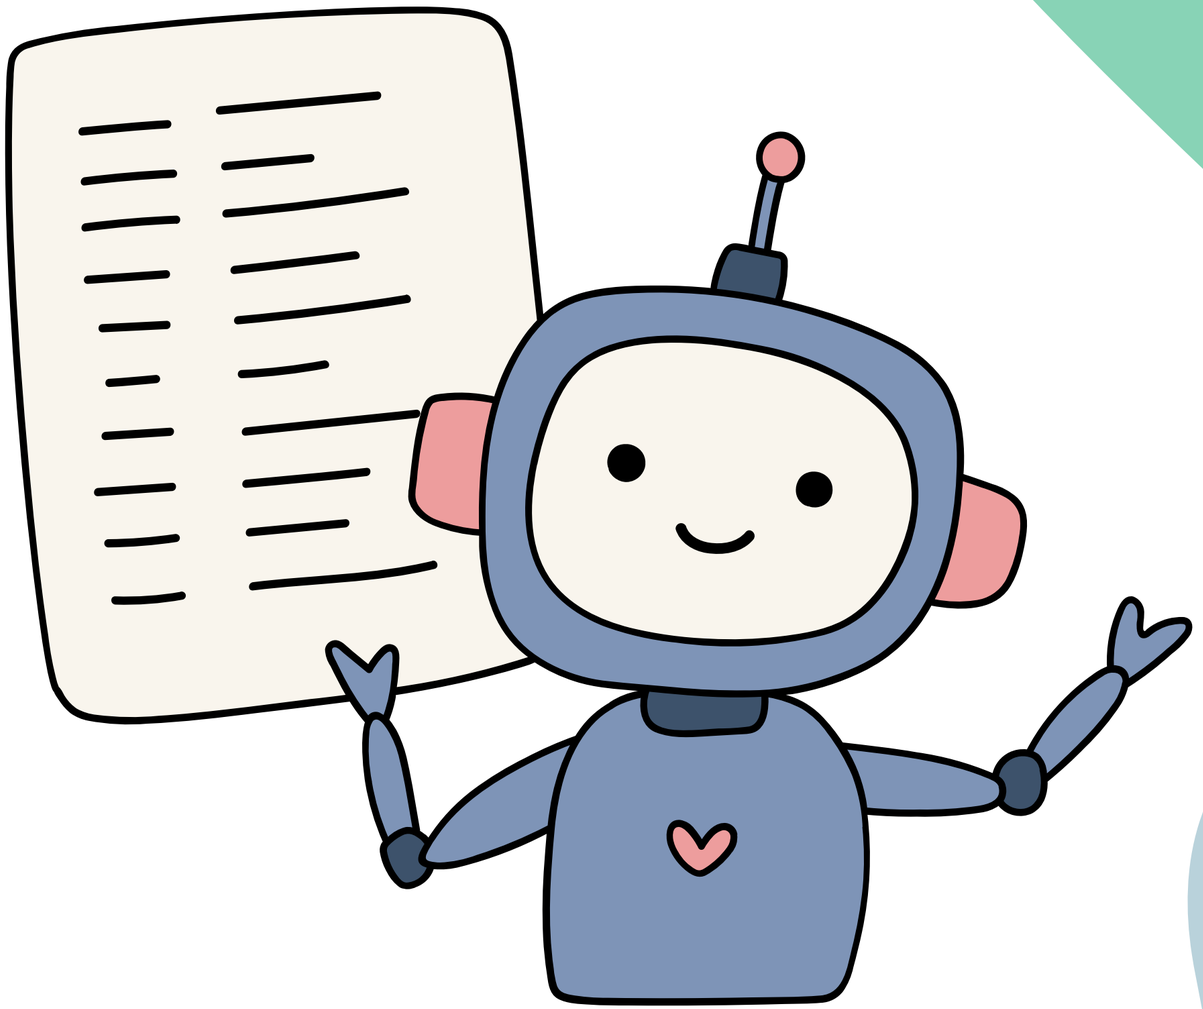

How does YouTube or TikTok know what videos you like?

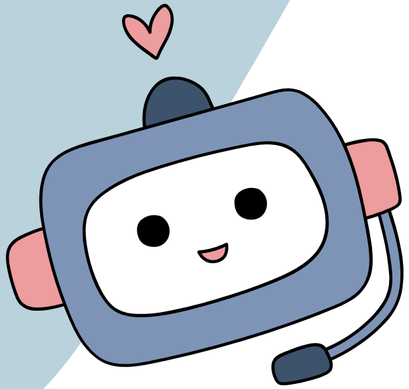

WHAT IS AI?

Artificial intelligence (AI) is technology, which enables computers to carry out tasks that normally require human intelligence and thinking. Computers can be trained to learn from information.

AI AROUND US

- Voice assistants (Siri, Alexa)
- YouTube recommendations
- Translation apps
- Face unlock

WHY CAN AI IMAGES LOOK STRANGE?

AI images can look strange because they are like a giant puzzle made by a robot. The robot tries to guess what things should look like, but sometimes it puts the wrong pieces together like giving a person six fingers or a floating shoe.

REFLECTION QUESTION

Where do we see AI in everyday life?
